

The Superintendent will form a Joint Loss Management Committee and a Crisis Management Plan that conforms to the National Incident Command System and maintain the SAU 16 Safety Program.

The practice of safety shall also be considered a facet of the instructional plan of the District school by incorporating educational programs in traffic and pedestrian safety, fire prevention, emergency procedures, etc., appropriately geared to students at different grade levels.

The Principal shall be responsible for the supervision and implementation of the Emergency Management Plan for his/her school. General areas of emphasis shall include, but not be limited to: in-service training; accident record keeping; plant inspection; driver and vehicle safety programs; fire prevention; catastrophe planning; and emergency procedures and traffic safety relevant to students and employees. The Principal shall be responsible for developing student safety procedures to be used on school buses, school grounds (including playgrounds), during authorized school activities (such as field trips), within the school building, and off school grounds during school sanctioned activities. The building's Emergency Management Plan shall be on file in the SAU office.
