

Partial Faculty Subcommittee Statement

What is being presented this evening are the recommendations of the Transition committee. However, as members of the student/faculty subcommittee, we were recently made aware of additional faculty organizational plans that were e-mailed by principal Sokul to the staff on Friday, January 27th for the faculty's feedback.

Because these new proposals were not generated by the subcommittee, several of our members met on Monday, January 30th at Exeter High School to discuss this new development. As a result, we are request, that f these pod-like proposals or any other new proposals are brought forward for consideration by the COOP Board, the subcommittee will have an opportunity to reconvene before any vote is taken by the school board.

The following members request that this statement be made a part of the public minutes.

Carol Hazekamp
Barbara Loh
Liz Faria
Kate Wheeler-Smith
Anne Plumer-Fisher
