

No school equipment may be used for purposes other than school related, civic, or educational purposes.

The Board shall permit school equipment to be loaned to staff members when such use is related to their employment; to students when the equipment is to be used in connection with their studies or co-curricular activities. Proper controls shall be established to assure the lender's responsibility for, and return of, all such equipment.

The Board shall permit school equipment to be loaned to staff and students when the equipment is to be used in connection with curricular or co-curricular activities.
