

The Superintendent will form a Joint Loss Management Committee and a Crisis Management Plan that conforms to the National Incident Command System.

The practice of safety shall also be considered a facet of the instructional plan of the District school by incorporating educational programs in traffic and pedestrian safety, fire prevention, emergency procedures, etc., appropriately geared to students at different grade levels.

The Principal shall be responsible for the supervision and implementation of a safety program for his/her school. General areas of emphasis shall include, but not be limited to: in-service training; accident recordkeeping; plant inspection; fire prevention; catastrophe planning; and emergency procedures and traffic safety relevant to students and employees. The Principal shall be responsible for developing student safety procedures to be used on school busses, school grounds (including playgrounds), during authorized school activities (such as field trips), and within the school building. The building's safety plan shall be on file in the SAU office.
